Julie Cantwell

Candidate for Kentucky State Representative, District 10

Party: Republican

I am a lifelong Kentuckian, a dedicated community volunteer and a committed advocate for practical, people-first policy solutions. As a Republican, I believe in responsible government, individual freedom and working respectfully with colleagues to get real results for Kentucky families.

For more than a decade, I have been involved in public advocacy and service, most notably in my work helping families facing serious health challenges. I played a key role in Kentucky's effort to pass medical cannabis legislation, an issue I championed for ten years on behalf of sick and suffering residents who needed safer, more compassionate options. That experience shaped my belief in traditional policies applied with compassion, common sense, and accountability.

I am running for State Representative in District 10 because I believe leaders should listen to their communities and focus on real solutions rather than partisan extremes. With my background in volunteer work, grassroots organizing and helping people navigate real-world challenges, I understand what families in District 10 are facing: rising costs, limited healthcare access, workforce shortages and the need for stronger rural infrastructure. I am also committed to supporting our veterans, protecting and advocating for senior citizens, small businesses and addressing the drug addiction crisis that continues to affect far too many families in our district.

Key Priorities:

- **Responsible Governance:** Fiscal discipline, transparency and responsible use of taxpayer dollars.
- **Healthcare Access & Options:** Supporting patient-focused approaches that get to the root of problem instead of only treating symptoms as well as protecting medical freedom for every Kentuckian.
- **Public Safety & Strong Communities:** Backing law enforcement while also supporting effective prevention, treatment and recovery efforts that keep our neighborhoods safe.
- **Economic Stability:** Advocating for small businesses, farmers, local jobs and policies that help our rural communities grow and thrive.
- **Protecting Personal Freedoms:** Upholding individual rights and protecting citizens from government overreach.

I bring a steady, compassionate approach to public service, and am running to represent District 10 with honesty, determination and a real desire to make life better for the people I serve.
