Notes for Peter H. Williams

<https://ky4thdistrict.framer.website/>

I have spent my entire working career in service: 6 years as an officer and electrical engineer in the USAF, followed by 28 years of teaching primarily public high school math, physics and engineering concepts, mainly at North Oldham High School in Goshen KY. I was named the Seiman's Kentucky AP teacher of the year in 2008-9 based on the excellent results of my students' AP scores over a 5-year period. After 9-11, I joined the AF Reserves for 7 years achieving the rank of Major. I retired from teaching in 2024. I have been married to a wonderful woman for over 34 years and we have two great kids.

I do not prefer the dysfunctional two-party system that prioritizes party over the people they serve. I am a moderate conservative who feels abandoned by those who do not voice what they truly think because they are afraid to offend others or lose their rank in file. I believe in term and age limits for congress and supreme court justices. I am not interested in divisive, extreme agendas on either side, but unfortunately we zig then zag between extremes and rarely make progress from the center. I believe in fiscal responsibility, a balanced budget, affordable and accessible health care, affordable housing, and a strong education system. I do not get caught up in cultural wars and ideologies at the sacrifice of providing financial security for our children's future. As citizens of an inspired nation, we should be civil toward one another as our kindness towards others represents a better version of ourselves and is a necessary part of a functional society. I am interested in efficiency not theater. How something is accomplished does matter and I stand on who I am and what I believe. As a US representative, when confronted with ethical matters, one must choose principals over party. In fact, that is how I generally decide who to vote for and that is why I am an independent, write-in candidate for the US House of Representatives.
