ENJOY MUMS THIS FALL

Chrysanthemums are wonderful plants to have on hand at this time of year, and they make lovely gifts to friends and family.

If you have one or two mums and you want them to last for as long as possible, place them in well-lit windows which get southern, south-western or western exposure. Keep them as cool as possible - 65° F. to 70° F. is what they prefer.

Keep the soil damp while the plants are flowering, and whenever it feels dry to the touch, give it plenty of water and allow it to dry only 24 to 48 hours before watering again. These plants
