The benefits of the smart card may not seem so obvious at first. But businesses like Mastercard are pushing for them for a couple of reasons. One, they will have to spend far less money on transaction costs. Like paying for phone lines into central computer rooms. According to the company, these transaction costs account for about \$600 million annually. Another reason is that the smart card will make credit card theft and fraud much more difficult. At present, a thief can buy a \$30 decoder at any electronics store and start using a stolen
